"Do you know why it is that the fame of Plant Juice has spread like wildfire throughout our great cities? It is because everyone who has tested it or has seen what it will do has a good word for it, and never misses a chance to speak it. The history of Plant Juice, the way in which Colonel Frank Diblingham, the manufacturer, first made it and the great events that followed have been the subjects of numerous newspaper articles throughout America. The story is an interesting one and I always like to tell of it. But here is something more to the point. Plant Juice is new being introduced into Texas, and it will sweep the state. It has sirecady established a firm hold in El Paso. It is reviving and revitalizing hundreds of citizens in all walks of life.
